Guidelines for Reviewers

(中文版审稿要求请见后)

Dear Reviewer:

Thank you for helping our journal to review manuscripts. We realize that your time is valuable and greatly appreciate your help.

The review process is double-blind and your name shall be kept confidential from the author(s) and vice versa.

At *Modern China Studies* we strive for providing **constructive** and **timely** reviews to our authors. We expect you to complete your review within **one month**.

The purpose of the review is two-fold: (1) to help the authors improve their research, and (2) to help editors make a decision on the manuscript.

If you have any further questions about the review process and policy, please do not hesitate to contact us.

Sincerely,

Editors
